

Shoe and Harness Shop

FIFTH STREET
Just West of Ward Avenue
CARUTHERSVILLE, MO.

Come to the little wide-awake Shoe and Harness Shop and have your Shoes, Harness, and Bridles, Horse Collars, etc., repaired, and save money. I will tell you a joke every time I do a piece of work for you.

T. J. SMITH

CALOMEL

Calomel is a dangerous drug. It is mercury—quicksilver; and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take "Dodson's Liver Tone" Instead!

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go

back to the store and get your money. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't squalor, so let them eat anything afterwards.

WE SELL DODSON'S LIVER TONE

LEFLER'S DRUG STORE, HAYTI, MO.

BRAGGADOCIO NEWS

There are a few cases of illness here yet.

Dr. Kersey is on the sick list.

Mrs. Lula Byars is on the sick list again, but is improving.

Levi Bingenheimer went to his home at Jackson Friday and returned Monday. Miss Velma Long taught scholo in his absence.

Joe Morgan and family, accompanied by Miss Viola Patterson, motored to the Chapel Sunday and attended church, and went from there to Mr. Morgan's mother, Mrs. Frank Odell, where they spent the rest of the day.

Rev. Miles preached three good sermons Saturday night, and Sunday at the Baptist church.

There was a play given a few nights ago by Miss Borer's pupils,

also a box supper given by the scholo. The proceeds went to pay on the Victrola for the school. The title of the play was: "The Sweet Family." It was quite comical, and which seemed to have been enjoyed by all.

Miss Viola Patterson had company Thursday evening, the guests being: Mrs. Pickens and family.

Everybody invited to attend Sunday school.

The Happy Ending.
"Marguerite, can you cook?" "No, Percival; can you afford to keep a limousine?" "No, dear." So they did not marry and they lived happily ever afterward.

FIFTY CENT GASOLINE PRE-DICTED FOR JULY FIRST

St. Louis Daily Says Gasoline Will Sell For Fifty Cents, and Other Lubricants Accordingly.

Many of the readers of this paper read that article, but there are hundreds of them who do not take the St. Louis daily papers, and for their benefit we are stating that fifty cent gasoline is not very far distant. This means that lubricants of all kinds, coal oil, and the by-products of crude oil will materially advance in order to keep pace with gasoline. It is a well-known fact that the crude oil supply of the world is being diminished, and that new fields must be discovered at once in order to keep the price of these most necessary motive powers within the reach of all.

There is only one way to keep down the price of necessities of this kind, and that is by discovering more oil pools in "wild cat" territory, and it costs money to "wild cat." As a consequence the investing public are now seeing the light and are interesting themselves in reliable oil companies which will help materially to increase crude oil production, and thereby keep the price down. The investor today is looking carefully into the management of the company he invests in. In fact the three cardinal principles in investments in oil companies are as follows:

FIRST—Is the management sound and substantial; are they men who were successful in their own particular business activities; if so, the company starts off on good foundation.

SECOND—Has the company enough acreage in producing territory where oil is found in commercial quantities to make a success of its undertaking providing they can sell enough of their stock to get on a dividend paying basis from the sale of crude oil.

THIRD—This is one of the most important features—the company must have pipe-line facilities—no matter how much oil they might discover if they are not in a position to market their oil after placing it in tanks they are handicapped and will never make a success. It is only with the sale of their production that they can pay dividends, although, it is reported that some companies are paying dividends who have never marketed a barrel of oil. These companies are known as stock-selling companies and never expect to make a success of the company, outside of assisting the promoters to line their pockets.

There is one company, however, that is practically financed by Southeast Missourians capitalists, managed by Southeast Missouri directors; with 22 producing wells; hundreds of acres of proven leases; and thousands of acres of "wild cat." This company is called the Indmoky Oil and Refining Company, and the Security Sales Syndicate of the Arcade Building, St. Louis, Missouri, which is selling some of its personally owned stock for the purpose of putting down fifty more wells or more for the company—the Indmoky holdings in Kentucky. The Security Sales Syndicate are also drilling in Perry county and expect to drill in several other counties in the state—in fact, arrangements are being made now to secure rig for Cape County where prospects for oil are very good.

Every dollar that is invested in the personally owned stock of the Security Sales Syndicate will help develop Southeast Missouri and assist in drilling wells for the Indmoky Company. This means something to the careful investor who wants to see his own county and state developed as well as have his investment safe, for the chances for big dividends are good. The time was when any old company could sell stock and get by with it, but the investing public has awakened to the fact that it is better to know who the management of the company is, whether or not they have good holdings; than to buy stock in companies that it is impossible to find out who the real men are at the head of it, what they have to offer in the way of safe investments, as to whether or not they will ever amount to anything.

Thousands in this state have been stung on buying lots in Texas and other states where oil might or not be found. Had they investigated these lot propositions in nine times out of ten they would have found that this acreage could have been purchased for ten to fifty cents an acre, where they paid from \$100 to \$500 an acre for it; and the so-called promoters never have drilled nor never intended to drill, that is why so many people are holding the sack today and have lots in several states that amount to nothing. These people were sincere in holding on to land in oil producing states, but did not go further and investigate before they got their good money. Had they done so, they never would have been fleeced out of their hard-earned money.

It will be well for the reader of this paper to look up the advertisement of the Security Sales Syndicate in this issue and send for more particulars about what they have to offer and what they are doing, and join one of the excursions to Kentucky and see for themselves what the discovery of oil has done for that state. Millions of dollars are now being put in the bank annually, from the sale of crude oil which is now selling for \$4 per barrel; and if Southeastern Missouri can discover a rich or richer field as Kentucky it will bring millions of money to our citizens that is otherwise lying under the ground. (Adv.)

Next Tuesday is city election day, also the date of the annual school election. Every good citizen should go to the polls and vote. While no candidates are out for alderman in either ward, it is presumed that both Mr. Sturm and Chas. J. Morgan, the present incumbents, will stand for election. At any rate, regardless of whether you vote in the city election you should by all means vote in the school election. We must for the standing of our community, our country and ourselves never let the school lag for the want of proper finances. Vote in favor of every proposition on the school ticket and for a full nine months school.

—We do fine job printing.

There is no better evidence of the value of the Hayti Herald as a medium through which the merchants of Hayti and the county may talk to the buying public, than a mere glance over our advertising columns. We are proud of our reputation as one of the leading newspapers, and believe that our clients are everyone trustworthy and their advertising is honest and straightforward. We ask that our readers give our advertisers their patronage, and in doing so they help make the Herald a better home newspaper.
